

Pet Emergency Kit: Birds

Store items in a sturdy, waterproof container so they can be carried easily and keep in an accessible location

Food & Water

- Two week supply of food, water and treats
 - For frozen/refrigerated food, place in a cooler with ice packs
- Airtight containers for pelleted diets, seeds, and dried fruits & veggies
- Food & water dishes

Note: Keep note of expiration dates of food and treats and rotate out as necessary. Rotate out water every 6 months to maintain freshness.

Medication

- Copy of medication and/or specialty food prescription(s)
- A month's worth of extra medication, vitamins, supplements, etc.
- All necessary medication administration supplies
- Cooler and chemical ice packs for medication requiring refrigeration
- Sturdy plastic container to safely dispose of syringes/needles

Note: Rotate out all vitamins/supplements regularly to maintain freshness. Keep all medications in a waterproof container and replace before they expire.

First Aid Kit

- Bird first aid reference book
- Waterproof bandages
- Shipping warmers
- Cotton bandage rolls, pads & swabs
- Bandage tape - paper & adhesive
- Antibiotic ointment
- Latex gloves
- Saline solution
- Disinfectant solution
- Blunt scissors & tweezers
- Styptic powder/corn starch
- Syringes & eye dropper
- Unflavored Pedialyte for hydration
- Bandage rolls - gauze and Vet Wrap

Note: Replace all items after each use and update twice a year. Include veterinarian, emergency veterinarian and poison control contact information.
