

Pet Emergency Kit: Dogs

Store items in a sturdy, waterproof container so they can be carried easily and keep in an accessible location

Food & Water

- Two week supply of food (dry & canned) water and treats
 - For frozen/refrigerated food, place in a cooler with ice packs
- Manual can opener, plastic lid and spoon for canned food
- Airtight container (for dry food)
- Food & water bowls

Note: Keep note of expiration dates of food and treats and rotate out as necessary. Rotate out water every 6 months to maintain freshness.

Medication

- Copy of medication and/or specialty food prescription(s)
- A month's worth of extra medication, vitamins, supplements, flea and tick treatments, etc.
- All necessary supplies (pill gun, syringes/needles, pill cutter, etc.)
- Cooler and chemical ice packs for medication requiring refrigeration
- Sturdy plastic container to safely dispose of syringes/needles

Note: Rotate out all vitamins/supplements regularly to maintain freshness. Keep all medications in a waterproof container and replace medications before they expire.

First Aid Kit

- Dog first aid reference book
- Cotton bandage rolls & pads
- Bandage tape
- Antibiotic ointment & antibacterial spray
- Antihistamine
- Latex gloves
- Isopropyl (rubbing) alcohol
- Saline solution
- Disinfectant solution/hydrogen peroxide (3%)
- Blunt scissors & tweezers
- Styptic powder or corn starch
- Muzzle
- Nail clippers
- Digital thermometer & petroleum jelly (lubricant)

Note: Replace all items after each use and update twice a year. Include veterinarian, emergency veterinarian and poison control contact information.

Pet Emergency Kit: Dogs

Store items in a sturdy, waterproof container so they can be carried easily and keep in an accessible location
